MONUMENTAL

COLLECTION INSPIRED BY CONCRETE
ARCHITEQ

The ARCHITEQ collection was inspired by the subtle texture of concrete in 12 trendy colours. It is part of the MONUMENTAL line, harmonizing perfectly with the other collections not only in terms of design, but also in terms of format, through rectified elements of the same dimensions. This unparalleled consistency with other PARADYŻ products considerably facilitates the process of space arrangement.

ARCHITEQ is the only versatile series offered by a Polish manufacturer, featuring delicate, soft and balanced shades of concrete with a pleasant to touch matt surface.

A wide colour palette, including 12 matching colours: 5 neutral greys, 5 shades of beige and the 2 trendy colours: green and terra, enables you to create a background for many interiors or eye-catching decorations. The multi-format nature of this mass-coloured collection with excellent performance characteristics such as abrasion and slip resistance, fits in with PARADYŻ's concept of harmonious design for any space. Its combination with other products, intended both for interiors and exteriors, will ensure design consistency and high functionality for any project.

ARCHITEQ

TECHNOLOGICAL ADVANTAGES OF THE ARCHITEQ COLLECTION:

- ✓ mass-dyed product
- ✓ anti-slip R10B
- ✓ deep abrasion
- ✓ PEI 4 – 5
